Universal Surety Bond Solutions Platform

**Powerful Surety Bond Portal to
Attract and Grow Business!**

Surety Bond States

Universal is continuing to leverage its proprietary Surety Bond application with its release of our Surety Bond Solutions platform that will enable wholesalers to embed a co-branded bond portal to their existing websites. Once the initial install is complete, you will be able to invite your agents through a simple registration process. Agents can then save the website in their “Favorites” and upon each bond purchase, the commission is attributable and sent to the wholesaler.

What problem are we solving?

Lack of surety bond platforms for wholesalers and agents to use on the fly

The cumbersome and inefficient process of obtaining surety bonds

How to scale your surety bond book

What are we offering?

A customized surety bond portal to drive additional traffic to your website

Most bonds are issued immediately. We facilitate Principal payment

For more complex bonds, underwriting and approvals are quickly done within the portal.

Dynamic administrative dashboard / document storage

Provide to agents and let business write itself

Benefits
